CVLS Legal Server Tutorial

Thank you for taking the time to learn about CVLS’ case management system, LegalServer. This is a basic tutorial. There is more help within the system, and CVLS staff can assist you as well.

Information you provide by adding and updating a Case Profile helps us improve client services and volunteer experiences. We understand that data and statistics are not attorneys’ strong suit. However, our donors want client demographics, so helping us complete this information ensures continued funding for our programs.

Please contact CVLS staff if you have trouble with LegalServer. We are here to help.

**Case Notes** are found by scrolling down in the Case Profile. They are easy to recognize by their yellow background. The initial Intake notes will be found here as well as Case correspondence by CVLS Staff and Volunteers.

The **Documents** tab is directly below the Case Notes. **Open** or **download** a document by clicking the download icon. **Upload** a document to the Case Profile by clicking on and dragging a document from your desktop.
Adding a Case Note.

You may add a Case Note or Document via email. This is handy if you want to forward an email you receive from a client, opposing counsel or send a document attached to an email. You can do that by addressing the email to [LegalServerID#]@cvls.legalserver.org.

Always cc: the LegalServer case in order to include a copy of an email in the Case Profile. The LegalServer case ID can be found at the top of the Case Profile; however, the most efficient way to send an email to the Case Profile is to copy the email address by clicking Case Email and choosing “Copy to Clipboard”. You can then paste the address in the recipient address section of an email and be confident that the address is correct.
